Hi Dore and Kate,

Can we take out enforcement confidential information from your fact sheet, so we can make it a public fact sheet? I found a public fact sheet (attached FYI) on the EPA's coal ash rule in general that was developed out of HQ and is on the web – so we should use that to explain the rule --- but we need to also explain actions that R2 has taken in Puerto Rico.

Tx Carmen. Mary, can you get DECA to prepare a fact sheet today. Scrub out anything that obviously is enforcement confidential. We have pre existing fact sheets on this topic. ASAP. Tx

Saludos! Today in the news, Senate President Eduardo Bhatia indicates that he has invited me to appear before the whole Senate in a plenary session with EQB President Weldin Ortiz to discuss the issue of AES ashes. I have been notified that EPA typically does not participate in state/commonwealth legislative hearings, but we must provide a response ASAP as the Senate, as well as the press, will see this as we are trying to hide information and we are not willing to appear to a questioning session.

I appreciate your ideas and feedback on how to quickly respond to this situation.

Thanks,
